CUSTOM MOUSE FURTHER NOTES AND CONSIDERATIONS:

The following items are customer specific (if applicable):

All 3D Printed items assumed to be ABS

- 1. MOUSE_COVER_TOP Will be 3D printed per customer's imprint on sent mold
- 2. MOUSE_COVER_MIDDLE Possibility of being 3D printed to mate with the TOP, however this could just be injection molded
- 3. MOUSE_BASE Possibility of being 3D printed to mate with the TOP, however this could just be injection molded, with one size as the 'chassis' or framework to fit many sizes and shapes of MOUSE_COVER_TOPs. May include the battery holder.
- 4. BATTERY_COVER Injection molded plastic
- 5. PCB All EE files should be sent to vendor
- 6. On/Off Button (Injection molded, ABS)
- 7. Optical Reflector (Injection molded, ABS)

The following items, when available, should be off-the-shelf items:

- 1. Scroll wheel (Injection molded, then covered with rubber sleeve)
- 2. USB Receiver (we get this from a supplier, then program in house)
- 3. Screws (Off-the-shelf, least inexpensive)
- 4. Battery Holder may be separately bought if not included in MOUSE_BASE.
